

**Cahyo Prayogo, SP. MP. PhD**

Brawijaya University, Malang,  
East Java

Indonesia

## **Biography**

Mr. Cahyo Prayogo, hold his PhD degree on 2013 from School of Life Science University of Warwick United Kingdom following training course on GIS and Remote Sensing for Natural Resources Management offered by ITC (International Institute for Geo Information Science and Earth Observation), Enschede, The Netherland on 2005. His main interest is on optimizing better land use management, reducing the impact of climate changes on soil productivity, monitoring land use changes and land degradation using spatial analysis tools and modelling, developing adaptation and mitigation tools to combat global environmental changes, examining carbon storage on terrestrial ecosystem over various land use type. Recently, he is expanding his expertise on the implementation of precision agriculture for developing site specific approaches for maintaining soil productivity. Now his position is a lecturer of Brawijaya University, Faculty of Soil Science Department and a vice deputy of Postgraduate Programme
